

## Ref. 9613 CITYLINE/MARINE MEMOKEY KEYPAD

### DESCRIPTION

Keypad 100 codes module of spare parts for inclusion in Marine electronic door entry panels.

Telephone type keypad that lets you open the door when a previously programmed 6 digit code is entered.

CityLine is the "continuous profile" outdoor panel line for buildings. This new panel model is more robust, more luxurious and higher design and functional quality. It is characterized by its curved-convex profile the same features of its predecessor. They are manufactured in aluminum and are highly weather resistant. It incorporates new materials like the chrome zamak in heads and pushbuttons.

Colour aluminium.

Marine is the anti-vandal panel line manufactured in 2.5 mm thick stainless steel. Straight lines that highlight the quality of the steel. State of the art technology and resistance to even the most corrosive, humid and dangerous atmospheres.

All panels are supplied with a flush-fit box.

Colour aluminium.

Stand-alone Access Control System. For installations where a simple access control is required, with no incidents record, to complement the audio/video door entry system and enable access to the building for residents, for ex-ample: offices, small businesses, garages.

### TECHNICAL SPECIFICATIONS

- Standalone Power supply: 12 Vac/Vdc
- IP: 54
- IK: 19
- Operating temperature: -10 to 60 °C
- Up to 100 user codes

# FERMAX

- Code length 4 to 6 digits.
- Electric lock release activation by Relay2 A (NA,NC). Programmable 1 to 99 sec. or bistable.
- Exit button input.
- Free access button (trades) input.
- Open Collector auxiliary output (150 mA max) to indicate sabotage attempt or door open/forced.
- Confirmation by keypad pulsation tone and acceptance or rejection of the code entered.
- Programming from the keypad by master code.
- Power supply 12 Vac / 12 Vdc
- Consumption: 6 mA (standby), 60 mA (active).
