Designed to Perform

Premier Elite Keypads

Blue LCD Screen

Available with a large 32 character display, the high level menu driven LCD programming simplifies even the most complex design requirements, minimising set-up time & maximising flexibility.

Proximity Tag Compatibility

The full range of Premier Elite keypads feature a built-in proximity tag reader.   This provides compatibility with Texecom Proximity Tags which simulate a valid user code, simplifying keypad operation and minimising user error.

Range of Surface Finishes

The Premier Elite keypads compliment any environment with a selection of surface finishes including: Diamond Black, Gunmetal, Polished Chrome, Satin Chrome, Polished Brass & Polymer (FMK only).

| Diamond Black | Gunmetal | Polished Chrome |
| Satin Chrome | Polished Brass | Diamond White |
