## Honeywell | Emergency Voice Communication Systems (EVCS)

# **Emergency Assist Alarm**

### Stand Alone Kit

The Emergency Assist Alarm Stand Alone Kit provides the perfect solution for conformity with the Building Regulations Document M and Equality Act

This is a simple 2 wire system that has been specifically designed to meet the needs of disabled service users and conforms to all the relevant requirements; Disability Rights Commission code of practice, English Tourism Council Recommendations and RNIB signage guidelines.

The use of combined high output blue LED indication and buzzer ensures a response to the call. The Emergency Assist Alarm Stand Alone Kit comprises of all the components needed to install a fully compliant system, with additional parts available separately.

| POWER SUPPLY UNIT SPECIFICATION   |                               |  |
|-----------------------------------|-------------------------------|--|
| Dimensions:                       |                               |  |
| Width                             | 146 mm                        |  |
| Height                            | 86 mm                         |  |
| Depth                             | 39 mm                         |  |
| Electrical Specification:         |                               |  |
| Mains                             | 230V ac +10% -15%             |  |
| Output                            | 12V dc (nominal)              |  |
| Physical:                         |                               |  |
| Construction                      | Flame retardant Polycarbonate |  |
| OVER DOOR INDICATOR SPECIFICATION |                               |  |
| Dimensions:                       |                               |  |
| Width                             | 87 mm                         |  |
| Height                            | 87 mm                         |  |
| Depth                             | 31.5 mm                       |  |
| Electrical Specification:         |                               |  |
| Operating Voltage                 | 12V dc (nominal)              |  |
| Physical:                         |                               |  |
| Construction                      | Flame retardant Polycarbonate |  |

#### **KEY FEATURES**

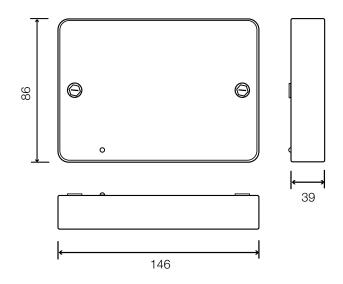

- Complies with regulations & recommendations
- Dual loop pull cord
- High contrast labels
- Blue indication
- Quick and simple installation, with limited cabling requirements
- High contrast printing for increased visibility
- Tactile braille signage to assist partially sighted people to easily operate the cancel plate

| CANCEL BUTTON SPECIFICATION  |                               |  |
|------------------------------|-------------------------------|--|
| Dimensions:                  |                               |  |
| Width                        | 87 mm                         |  |
| Height                       | 87 mm                         |  |
| Depth                        | 25 mm                         |  |
| Electrical Specification:    |                               |  |
| Operating Voltage            | 12V dc (nominal)              |  |
| Physical:                    |                               |  |
