

FA360B

2J Xenon beacon, Red shallow base, Blue lens

General

The FA360B is a general purpose 2J Xenon beacon for fire alarm applications. Which features a special base containing all wiring connections and allow for easy removal/placement of the beacon.

Easy and Fast Installation

The FA360B beacon allows faster installation and maintenance thanks to an innovative mounting base. Dispensing with the need for locking screws, these sounders use TimeSaver™ bases from the 630 series detectors. Heads are simply locked onto the base with a “twist and click” action, allowing fitting or removal at any time because the base is the only component that needs to be wired. As the cabling requirement is reduced, commissioning time and costs are naturally reduced as well.

Efficient and versatile

The mechanism for locking the beacon to the base, can be activated if required. Once activated, a special tool is required to remove the sounder from the base.

The FA360B beacon utilises a full faced translucent sounder case, giving a much larger lens area and a greater spread of light.

Standard Features

- 2J Xenon flash
- Anti-Tamper locking mechanism
- Shallow mounting base
- Wiring directly to base

FA360B

2J Xenon beacon, Red shallow base, Blue lens

Specifications

Operation	Continuous
Supply voltage	19 - 30 VDC
Current consumption	130mA
Flash rate	60/min.
Line monitoring input	Polarised input
Housing	High impact polycarbonate
Ingress protection	IP21
Operating temperature	-25°C to +55°C
Dimensions (Ø x D)	
Shallow base	100 x 81 mm
Weight	215g
Color base	Red
Color lens	Blue
