

REF. 5201 AC-MAX EXPANDER 8 INPUTS/OUTPUTS EXP8-IO

Dimensions(width,height, depth) :155x72x20mm

Expansion card with 8 sensor inputs and 8 relay outputs. It allows the activation of 8 additional relays to carry out automation or simultaneous openings. It has 8 sensor inputs that allow the detection of alarms or door states. The circuit includes the adapters for DIN rail mounting. A separate DIN rail junction box is required, not included in the product.

ACCESORIES

- 4813 P.S.U. DIN6 100-240VAC/12VDC-2A
Used to power the different equipment in a Fermax installation.

TECHNICAL DETAILS

Dimensions(width,height, depth) :155x72x20mm

Standby consumption: 30 mA

Operating System: [5°C,40°C]

Humidity: [10%,95%]

Product weight (kg): 115 kg

Power Supply: 12VCC

SPECIFICATIONS

Access Control System: AC-MAX

Mounting: Carril DIN 10

Nº máximo de puertas por central/controlador:

Programación: Desde lector

Nº de controladores esclavos por central: 15
