

The ideal solution for passageways in apartment blocks and industrial facilities

- A modern style barrier, aesthetically perfect for any setting.
- The LED dome-shaped flashing light and the photocells can be integrated into the cabinet to ensure safety as well as durability.
- The protective cover safeguards the barrier movement against any shearing action when opening and closing.
- The 24 V DC choice is ideal for the intensive duty cycle.
- Combined and compass opening function, with RSE card (for G2080E and G2080IE barriers).

Dimensions (mm)

NOTES
Application of the ZERO-E01 solar panel.

For applying the ZERO-E panel, see section dedicated to accessories.

ENERGY SAVINGS

The control panel for the models with encoder features the SLEEP MODE function to guarantee energy savings.

GARD 8 WITH ENCODER IS COMPATIBLE WITH THE ZERO-E SOLAR PANEL

Zero-E can be integrated by means of direct application to the cabinet using the special bracket. With the Zero-E solar panel the barrier can be installed where there are no connections to the mains power.

DETACHABLE BOOM FITTING BRACKET

An accessory for horizontally opening the barrier in case of an accidental impact.

IN AISI 304 STEEL

The Gard 8 barrier is also available in the AISI 304 steel with satin finishing, for installation in places with particular weather conditions.
