

The PC10A Photocell Kit and separate head has a switching load capacity of 1000W, is IP65 rated and is fitted with a photodiode.

- 240V
- 1000W
- IP65
- 1 YEAR GUARANTEE

Specification

- Voltage:** 240V
- Switching Load:** 1000W resistive, 1800VA inductive
- Load Example:** 1000W tungsten halogen
2 x 400W metal halide
- Light Level:** On - <20 lux
Off - >80 lux
- Max. Switching Capacity:** 10A
- Switching Delay:** 10-15 seconds
- Sensor:** Photodiode
- Life Expectancy:** 5000 cycles
- Guarantee:** 1 year
- IP Rating:** IP65
- Material:** Polycarbonate
- Working Temp:** -20°C - 80°C
- Extra Info:** 20mm Hole at the base for the gland
