### RDRSEU908K00000

### HID iCLASS SE U90, SE E, No PROX, UHF, 865-868 MHZ, STD, WIEGAND, TERM, BLK, STD 1 SECURITY

HID Global's iCLASS SE ® U90 long range readers offer an extended range solution for parking and gate control. Featuring advances encryption technology, the solution delivers the most secure ultra-high frequency (UHF) access control on the market. With a read range of up to five meters, the iCLASS SE U90 can read multiple credential types and support a mixed credential population. The ability to combine building access with parking and gate control on a single card or fob offers both convenience and security.

As part of HID Global's iCLASS SE platform for advanced security, the readers utilize state-of-the-art authentication through the platform's Secure Identity Object (SIO) data model. When paired with SIO-enabled UHF credentials, the platform provides trusted and secure communication between the card and reader to prevent unauthorized access. The iCLASS SE U90 long range reader is built on the Security Industry Association (SIA) Open Supervised Device Protocol (OSDP) standard, which also ensures secure transmission of data from the reader to the controller.

Built to withstand exposure to severe weather, the reader includes a rugged housing that protects the antennae and electronics from harsh conditions. The easy-to-install readers are built on the VESA standard and do not require custom mounting hardware. Once installed, the iCLASS SE U90 can be locally configured via an Ethernet port and a user-friendly web interface for ease of maintenance.

#### Details

- Convenient Discreet hands-free authentication solution for long range parking and gate control.
- Dynamic Field configurable via a full user interface for ease of maintenance
- Compliant Supports UHF ISO 18000-6C compliant credentials containing Secure Identity Object® (SIO®) encryption technology
- Powerfully Secure Encryption of card data through controller, enabling secure end-to-end communications

### **Technical specifications**

| Reader type              | Long Range  |
|--------------------------|---|
| Reader operating-        | 868 MHz   |
| transmitting frequency   |   |
| Support technology UHF   | UHF EPC Class 1 Gen 2/ISO 18000-6C  |
| Read write               | No  |
| SAM module embedded      | No  |
| System                   |   |
| Reading distance         | 3 to 5 m  |
| Max. reader distance to  | 152 m   |
| panel                    |   |
| RTE (Request To Exit)    | No  |
| CSN (Card Serial         | Yes   |
| Number)                  |   |
| Custom data model        | No  |
| No. of LEDs              | 1   |
| No. of covers included   | 1   |
| Interface & connec       | tions   |
| Interface                | Wiegand   |
| Connector type           | Terminal Strip  |
| Tamper type              |   |
| Pry-off tamper           | Yes   |
| Opening tamper           | No  |
| Operation                |   |
| Stand-alone              | No  |
| PIN keypad               | No  |
| Electrical               |   |
| Power supply type        | VDC   |
| Power supply value       | 12 or 24 VDC  |
| Current consumption      | 160 mA @ 24 VDC   |
| Dhysical                 |   |
| Physical                 | 221 221 70  |
| Physical dimensions      | 231 x 231 x 70 mm   |
| Net weight               | 1.844 kg  |
| Shipping weight Colour   | 1.884 kg<br>Black   |
| Material                 | Polycarbonate   |
| Form factor              | Oversized   |
|                          | Surface Mount   |
| Mounting type Dimensions | 23.1 cm x 23.1 cm x 7.0 cm  |
|                          |   |
| Color                    | Black   |
| Housing material         | UL94 polycarbonate  |
| Mounting                 | Drill mounting box to meet application. Drill points provided for US and EU wall boxes and 75 mm, 100 mm, 200 mm VESA mounts. |

| Environmental  |  |
