ELECTROMAGNETIC LOCKS/ V3 Series - Internal Surface Magnetic Lock

Product description

The V3 Series are surface maglocks with a holding force of up to 300kg. It is part of an extensive range of electromagnetic locks manufactured by CDVI, offering high quality and high performance locking with exceptional features to enhance your installation.

The magnets are delivered with security "catch" ropes to prevent the magnetic lock from falling, ensuring a side mounting without risk of injury.

A door positioning monitor ([DPM300](#)) is available for a more secure system.

Product Specifications

Holding force: Up to 300kg

Monitoring: lock status - COM, NO, NC

Electrical Specifications

Voltage: 12/24Vdc

Current: @12Vdc = 550mA,

@24Vdc = 275mA
