2904

TELEPHONE INTERFACE

SB TOP **SB2** **SB1**

Part. 2904 is used to easily connect the door entry system to a standard telephone system. For use with Simplebus 1, 2 and SBC. The interface is not compatible with the TOP system when main and secondary switchboards are used in the same system, when the intercom function without interface is present and active and when the alarm function is being managed on the system.

The technical specifications are subject to variations without warning.

2904

TELEPHONE INTERFACE
